

SANTA'S TRAINS

In collaboration with the Pioneer Valley Model Railroad Club, The Garden House, transformed into a mystical wonderland, offers all of the sights and sounds to capture the magic of the holiday season.

During Santa's Trains, children of all ages will have the chance to visit with Santa and Mrs. Claus, explore an enchanted forest of holiday trees and playful miniature villages with model trains whizzing by.

Santa's Trains is free to the public every year, with hundreds of local businesses and community members sponsoring various aspects of the multi-week event. We are fortunate to have welcomed tens of thousands of people to this event each year, making it a holiday destination for families and patrons.

This event coincides with our nightly Look Park Express wagon ride and our stunning Winter Wonderland Light Display. This event is free to the public because of the overwhelming support we receive each year from businesses and volunteers. This signature event and its sponsorship opportunities are included in most of our Community Partner levels.
